

PROFESSIONAL SUMMARY

Operator-technologist with 20+ years across fielded robotics, software-enabled equipment, electromechanical manufacturing, launch execution, customer operations, and AI-assisted decision systems. Strongest at turning ambiguous customer and machine signals into roadmaps, requirements, acceptance criteria, release readiness, pilots, dashboards, and operating cadence.

ROBOTICS PRODUCT PROOF

- ? Connects approximately 1,000 fielded robots, telemetry, machine-vision context, support, engineering issue flow, production, quality, ERP/Odoo, training, and leadership review.
- ? Led Prime Pittsburgh launch and 24/7 execution supporting approximately five million second-day orders annually through metrics, staffing, escalation, and standard work.
- ? Led engineering, manufacturing, quality, validation, documentation, lifecycle controls, supplier handoffs, and high-reliability technical programs.
- ? Builds PRDs, user stories, acceptance criteria, review gates, dashboards, decision records, agentic workflows, and human approval.

VAPE-JET / PDX TECH SERVICES | DIRECTOR OF OPERATIONS | 2025-PRESENT

- ? Leads product-facing operating transformation in a software-enabled robotics and machine-vision environment.
- ? Translates field and customer evidence into requirements, release-readiness mechanisms, support workflows, dashboards, documentation, and owner gates.
- ? Leads cross-functional cadence across engineering, production, quality, purchasing, software, support, training, customer operations, and leadership while remaining hands-on in the workflows.

DUDEWORTH | FOUNDER / AI AND AUTOMATION ADVISOR | 2017-PRESENT

- ? Develops AI-readiness and product-opportunity frameworks spanning value, feasibility, data readiness, governance, adoption burden, reuse, and time-to-value.
- ? Designs agentic workflow patterns using structured context, retrieval, AI agents, human judgment, escalation, evaluation, decision records, and governance rails.

AMAZON | OPERATIONS MANAGEMENT / SITE LEADER | 2014-2018

- ? Led launch and execution for Prime Pittsburgh in a 24/7 customer-backward operating environment.
- ? Built labor planning, throughput visibility, escalation paths, standard work, safety, quality, and customer-promise mechanisms.
- ? Contributed to logistics innovation through Prime Air research and Amazon Flex geolocation concepts.

COMPUNETICS | DIRECTOR OF OPERATIONS AND ENGINEERING MANAGEMENT | 2000-2013

- ? Progressed through R&D program, production, acquisition, operations, and director-level leadership in advanced electronics.
- ? Led engineering, manufacturing, quality, customer delivery, complex assemblies, validation, documentation, lifecycle controls, root cause, and process controls.
- ? Collaborated with DoD, CERN, Intel, and AMD; published industry articles and participated in the HyperTransport Consortium.

ADDITIONAL EXPERIENCE

- ? Cardinal Building Products | Regional Director | 2021-2023: built the first remote regional operation and modernized customer, CRM, commercial, fulfillment, logistics, and digital buying workflows.
- ? Enviro Social Capital | Chairman of the Board | 2014-2017. IEEE CMPT and EDS Pittsburgh Chapter Chair | 2012-2016.

LAB37 CONTRIBUTION

- ? Own roadmap, PRDs, user stories, acceptance criteria, release readiness, pilot scope, KPI views, and post-launch iteration.
- ? Bridge mechanical, electrical, software, culinary, manufacturing, commercial, operator, support, and customer decisions.
- ? Measure the complete product through throughput, latency, accuracy, uptime, intervention, recovery, quality, adoption, support burden, and economics.

EDUCATION, CREDENTIALS, AND TOOLKIT

- ? Bachelor of Science, University of Pittsburgh. Academic grounding includes materials science, physical chemistry, and biology-related studies.
- ? Google AI Essentials | IBM Enterprise Design Thinking Practitioner | Six Sigma Certification | OSHA 10.
- ? Robotics | Telemetry | Machine Vision | Edge AI | IoT | Python | SQL | JavaScript | TensorFlow | Tableau | Jira | Confluence | ERP/Odoo | HubSpot | Slack | GIS.
